# ATHLETIC - GYM

Sports equipment and sports furnishings must be functional and safe.

The **POLYMAR**<sup>®</sup> sports product line offers quality materials that match a maximum of application options: flexible separation walls and separation curtains for gymnasiums, wrestling mats, jumping mats, net fabrics for air ventilation, enclosures for the trampoline, punching bags, gloves, mittens, body shields and body protections.

I.T.E.M. Inc. has delivered on a wide variety of products designed to protect indoor and outdoor sports surfaces. Whenever a sports facility needs to be converted for a multi-use purpose, be it a school gymnasium, a sports field or a stadium, I.T.E.M. has the right cover to protect the playing surface. While we are a leading supplier in our field to the North American market, many of our products are sold worldwide.

### **Specialties**

Gym floor covers, sports surface protection, baseball tarps, gym wall padding and divider curtains, football field cover and sideline protection, soccer field cover, tennis court screens and dividers, bleacher covers and enclosures, portable fencing, signs and banners.

Our product line combines different materials and fabrics, which are totally targeted for the respective applications as sports furnishings or sports equipment.

We use many types of industrial fabrics to achieve the desired purpose and application. All of our Indoor fabrics meet the highest federal and California flame retardant codes as well as being the strongest and most durable.

All of our outdoor fabrics carry the highest ratings available for U.V. protection, anti fungal and mold control while maintaining their environmental friendly quality. These fabrics will ensure long life of the products fabricated to provide many years of use.

Selecting and specifying the right fabric for your application just got a whole lot easier. Designed, engineered and manufactured by the world leaders in protective cloth technologies, the wide range of industrial fabrics available to I.T.E.M. offers absolute freedom in product design. Whether you need an economical fabric for light use or large-scale commercial high volume use, there is an industrial fabric engineered specially for almost every application. And when it comes to choosing the ideal color to complement your project, you simply won't find a bigger, better or brighter selection than what I.T.E.M. has to offer.
